

WEAVER INDUSTRIES

CUSTOM URETHANE
OUTPERFORMING EXPECTATIONS

WEAVER INDUSTRIES

URETHANE OUTPERFORMS MANY MATERIALS IN TODAY'S INDUSTRIAL AND CONSUMER MANUFACTURING MARKETS.

4 Reasons to Choose Weaver Industries

Customization | Formula Development | Durometer Range

We customize urethane to your needs, from mold manufacturing and prototyping to production runs and final product. We offer new formula development or basic formula adaptation to your exact specifications. We manufacture urethane parts in a range of durometers, from 30 Shore "A" (soft) to 80 Shore "D" (hard).

Design Expertise

Highly skilled staff will offer you as much or as little design assistance as needed. We provide a variety of pigments to produce a broad range of colors, whether you want your parts to blend together or stand apart for high visibility.

Extended Lifecycle

We can strip and recoat worn parts, bond to metal, grind to tight tolerances, and work from existing tooling to extend the lifecycle of your urethane products.

Unmatched Customer Service

Even the best technology is worth little without the best people to deliver a quality product from start to finish. Weaver Industries, Inc. employs a knowledgeable, friendly staff at all levels of the company. We go to great lengths to ensure that you receive the highest quality product, when you need it, at cost competitive pricing.

BENEFITS OF URETHANE

URETHANE vs Rubber	URETHANE vs Metal	URETHANE vs Plastic
Abrasion resistant	Lighter weight	Returns to original shape when stretched
Bears heavy loads	Less noise	Won't crack or break under impact
Versatile in hardness	Better wear	Longer life
Resistant to sunlight and weather	Cost effective	Versatility in hardness
Accepts pigmentation		

SPECIALIZING IN CUSTOM URETHANE PARTS

Weaver Industries, Inc. Statement of Quality

It is the policy of Weaver Industries, Inc. to control the manufacturing and delivery of products in such a way as to ensure the conformance to all applicable requirements, on time and within budget. Each and every member of the company is responsible for the quality of the company's deliverables. All company programs shall provide control at all stages of the process from acceptance of an order through completion. Additionally, all programs shall stress defect prevention and continuous improvement aspects with the emphasis on manufacturing a quality product the first and every time.
